

Combining power of empathy and speed to deliver sheet metal components

PT DUTA LASERINDO METAL

Titelbilder: TRUMPF

Professional Sheet Metal Fabrication

Duta Laserindo Metal PT (DLM) is Indonesia's leading sheet metal fabrication & contract manufacturing assembly job with ISO 9000 accreditation. With premises in Cikarang (West Java) , Solo(Central Java), Surabaya(East Java) DLM is able to response widely the need of the industry in Indonesia.

Using state of the art CAD/CAM,CNC machine for laser cutting, punching, and bending, DLM specializes on low and medium batch sizes of high tech sheet metal parts.

DLM offers the complete sheet metal manufacturing solution, from single part or sub-assembly manufacture to turnkey solutions for mechanical and electrical assemblies. With more than 12 years manufacturing experience DLM has gained trust from reputable customers such as Caterpillar Indonesia, Schneider Electric, Sakai, Hitachi Electric, Trumpf Werkzeugmaschinen GmbH. On a global partnership DLM is committed to cooperate with business partners from overseas.

DLM designs and fabricates also perforated panels in order for architectural metalwork, screens, cladding and building facades for many industrial applications. Perforated panels and screens can be manufactured in a variety of metals and thickness and can be CNC punched, metal stamped or laser cut

Competencies and Facilities

Meeting the needs of OEM and our industrial customers in sheet metal, DLM equips the facilities with the following machining & engineering abilities:

- CNC 2D Laser cutting: thickness up to 20 mm (mild steel), working area 1500 x 3000 mm
- CNC Punching: thickness up to 6,4mm (mild steel), working area 2500 mm x 1250 mm
- CNC Bending: 36, 85,130 Ton, 5 axis
- Robotic Welding for TIG,MIG and precision 3D welding table from Demmerle
- Shot blasting facilities
- Surface treatment and powder coating: it is performed with our long year partners

Our large tooling availability, CAD/CAM and long year expertise in design, machining, welding and assembly of machineries component provides our customer the fastest and reliable production from idea to finished parts.

Fabrication and Services

We continually seek to improve upon our manufacturing techniques to enable us to fully comply with customers' expectations in a prompt, accurate and consistent manner. Having the experience working with companies from Europe, Japan, Korea, the US and leading Indonesian companies. Our team at DLM strives to achieve the highest customer satisfaction and quality according to customer specification.

We pride to have served our customers in many industry segments:

- Machine Industry
- Material Handling
- Chemical Industry
- Electrical Industry
- Building Sector
- Traffic Engineering
- Medical Engineering
- Vehicle Construction

Kiosk Manufacturing

DLM kiosk business unit produces interactive touch screen kiosk or self service terminal for application such as internet kiosk, information kiosk, ticketing kiosk, game kiosk and vending machines.

Our customers ranges from application integrator until direct users such as from banking, education, government, manufacturing industry, transportation, gastronomy and many others.

Our Trukiosk™ engineering team for user interface is ready to assist kiosk application developer. Visit www.trukiosk.com for further information.

Industrial Partners

Global outsourcing demand requires DLM as subcontracting industry to broaden and strengthen technology and manufacturing capabilities while allowing for a more cost-effective and one stop solution for our customer.

DLM is pleased to cooperate with the following Indonesian Partners:

PT Guna Era Manufaktura, Cikarang

Processing plant equipment fabrication
Mechanical, electrical & control integration

ATMI Solo, Central Java

Industry for precision component, mould & tools

West Java, Cikarang:

PT Duta Laserindo Metal
Jl. Meranti 2 no.16 Delta Silicon Industrial Park
Lippo Cikarang, Bekasi 17550- Lemah Abang
Indonesia
